

ERGONOMICS AND WELLNESS

5 REASONS *Sound Rx* is SO SPECIAL

SOUND SPECS

1. Acoustic science engineered sound board for maximum distribution of sound
Our manufacturer spent months researching the best wood to mount our super transducers on that would distribute the tones. This way you feel the tones throughout the chair not just where the transducers are placed.
2. Two Clark transducers optimally placed for maximum effect. From 30 years of experience using vibro acoustic chairs, Dr. Jonas has found the optimum position for the transducers to maximize effect. The chosen transducers are of the highest quality for therapeutic effects.
3. Highest quality receiver with optional low pass filter for our specialized MusicalMedicine programs.
[Note: amplifier does NOT have a headphone jack]
4. Highest quality over the ear, padded headphones to deliver the clearest sound through **all** ranges. It is really important for the headphones to block out other sound, deliver the frequencies accurately, and have a wide range of conductance especially in the lower ranges.
5. Comes with our 5 CD VAT starter package: [a \$125 value]
 - Spinal Ease* Frequencies
 - PTSD* Music and Frequencies
 - Oxygenizing* Frequencies
 - Pain Ease* Frequencies
 - Etheric Sweep* Music & Frequencies

RECOMMENDED AUDIO PLAYERS

~**Fiio Hi Resolution audio player** – the high end MP3 that renders our programs perfectly. There are several generations, all excellent.

If you decide on this product, you will also need to purchase:

- ~a 128 GB memory card so you can add multiple programs in high resolution formats like: FLAC, WAV, AIF and more.
- ~ a splitter
- ~ a male to dual RCA cord so you can plug in your headphones and plug into the amplifier.

~**Sony DVP-FX750 7-Inch Portable DVD Player, Black (2010 Model)**

Plays our complex MusicalMedicine programs without compromise. Easy to pair with the amp.

~**Other** We are not recommending any CD players since most of the affordable ones no longer have headphone capability.

CARE & MAINTENANCE

WARNING

1. Be sure to disconnect the power cord from the electrical outlet before cleaning.
2. When cleaning the controller or power switch, *use a dry cloth* only.
3. Be sure to test any cleaning solution on a small, inconspicuous part of the product
4. Do NOT use benzene, thinner or any other solvents on your product

Cleaning Code Standard:

To maintain your product dust frequently

If your product becomes dirty, use a water-based upholstery cleaner only. To treat stains, spot clean with an upholstery shampoo or a mild detergent foam.

Maintenance and Repair:

The mechanics of this product are specially designed and constructed to be maintenance free. No periodic lubrication or servicing is required. Warranty information is included in the packaging.
